

EyeNet Vision

Intelligent Vision Technology Platform - Business Plan

PPL Meta Platform | February 15, 2026 | Version 2.0

Executive Summary

Investment Opportunity Overview

EyeNet Vision is seeking **\$2-3M Series A funding** to scale an intelligent vision technology platform with **six specialized applications** serving a **\$2-4B addressable market**. With five products ready for Q2 2026 launch, the company projects growth from **\$1M to \$26M ARR** by 2028, targeting exit at **\$500M-\$1B valuation** within 4-5 years.

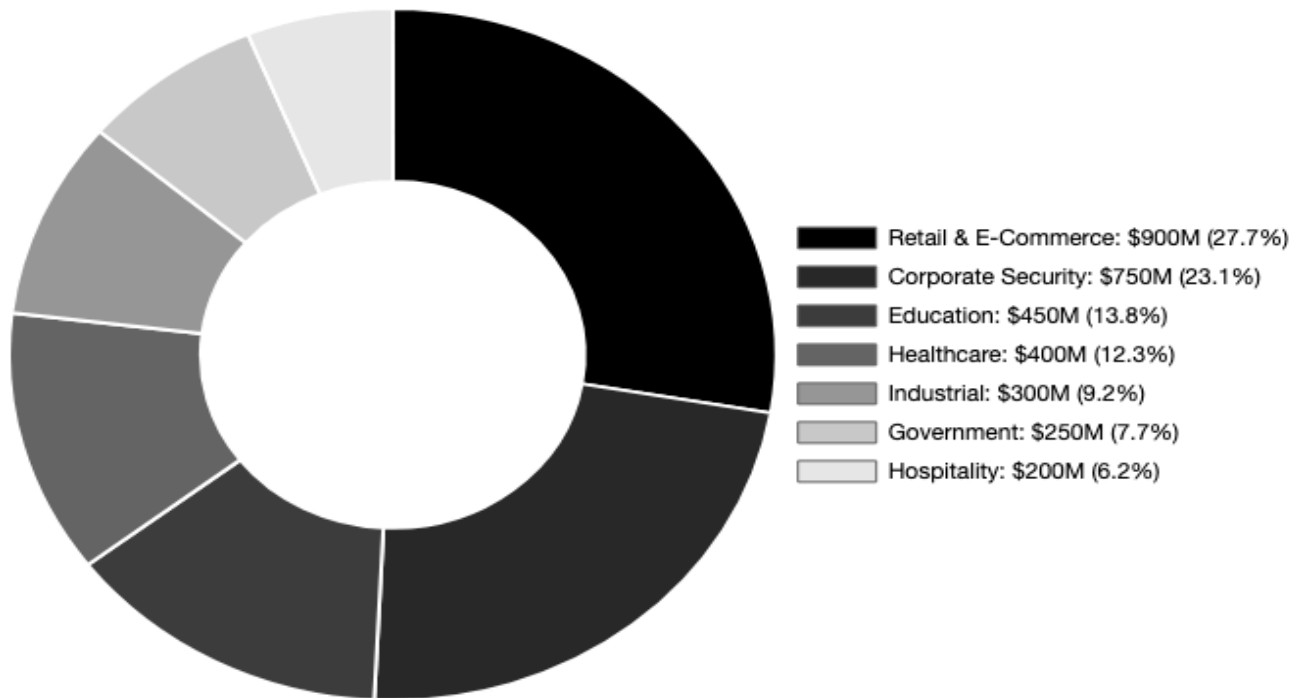

Company Overview

EyeNet Vision is an intelligent vision technology platform delivering six specialized applications across security, marketing, compliance, and operations verticals. Built on the PPL Meta platform, EyeNet combines proprietary computer vision, demographic analysis, and event-driven automation to transform passive surveillance into active, responsive operational intelligence.

Market Opportunity

The total addressable market spans \$2-4 billion across multiple verticals including retail, corporate security, education, healthcare, industrial facilities, government, public transit, and hospitality sectors.

Total Addressable Market by Vertical

Product Portfolio

EyeNet Vision offers six specialized applications:

Application	Primary Market	Key Features	Launch Status
Intelligent Signage	Retail, Marketing	Demographic targeting, engagement analytics	Q2 2026
Gate Activity Monitor	Security, Corporate	Traffic analysis, anomaly detection	Q2 2026
Room & Gate Protection	Security, Compliance	Access control, unauthorized entry alerts	Q2 2026
Sentinel	Industrial, Warehousing	Personnel tracking, safety monitoring	Q2 2026
Underage Detector	Retail, Compliance	Age verification, compliance reporting	Q2 2026
Security Officer Agent	Mobile Security	Wearable/drone-based monitoring	Q4 2026

Business Model

EyeNet operates a dual revenue model combining B2B enterprise contracts and B2C consumer subscriptions, providing stability and volume growth opportunities.

B2B Enterprise Model

- **Target Customers:** Mid to large enterprises (50+ employees)
- **Contract Value:** \$6,000 - \$150,000 annually
- **Sales Cycle:** 6-9 months
- **Revenue 2026-2028:** \$600K → \$4.5M → \$14.5M

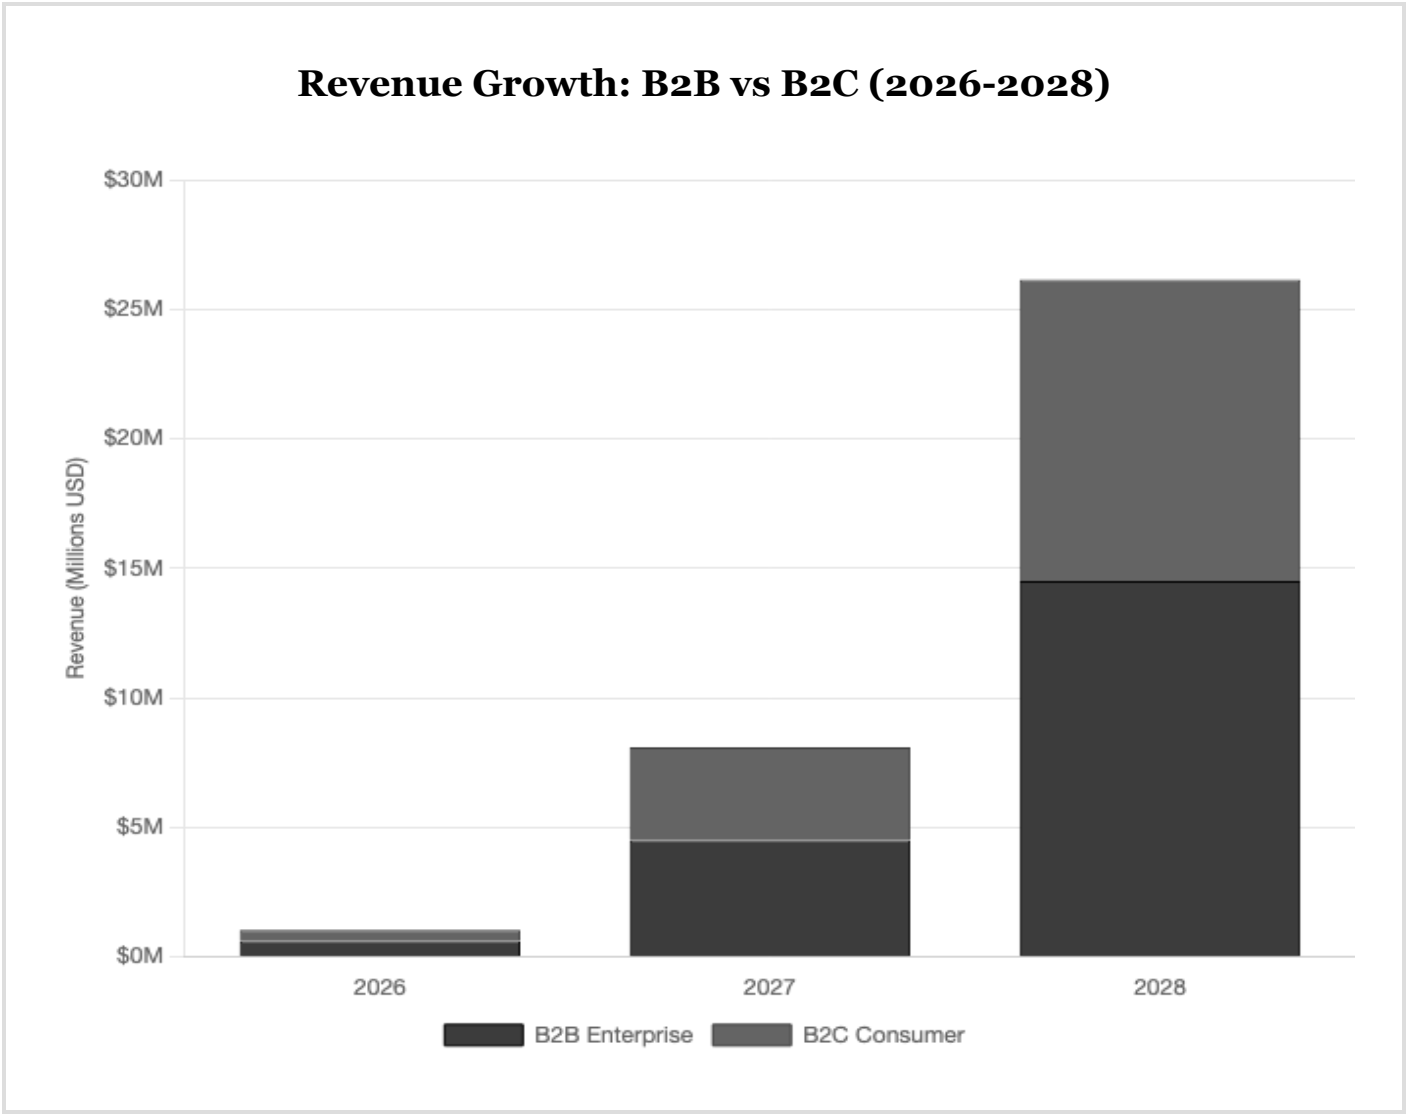

B2C Consumer Model

- **Target Customers:** Small businesses, individual users
- **Pricing:** \$20-\$300 per month
- **Sales Cycle:** Freemium funnel, 30-60 day conversion
- **Revenue 2026-2028:** \$440K → \$3.59M → \$11.65M

Financial & Revenue Model

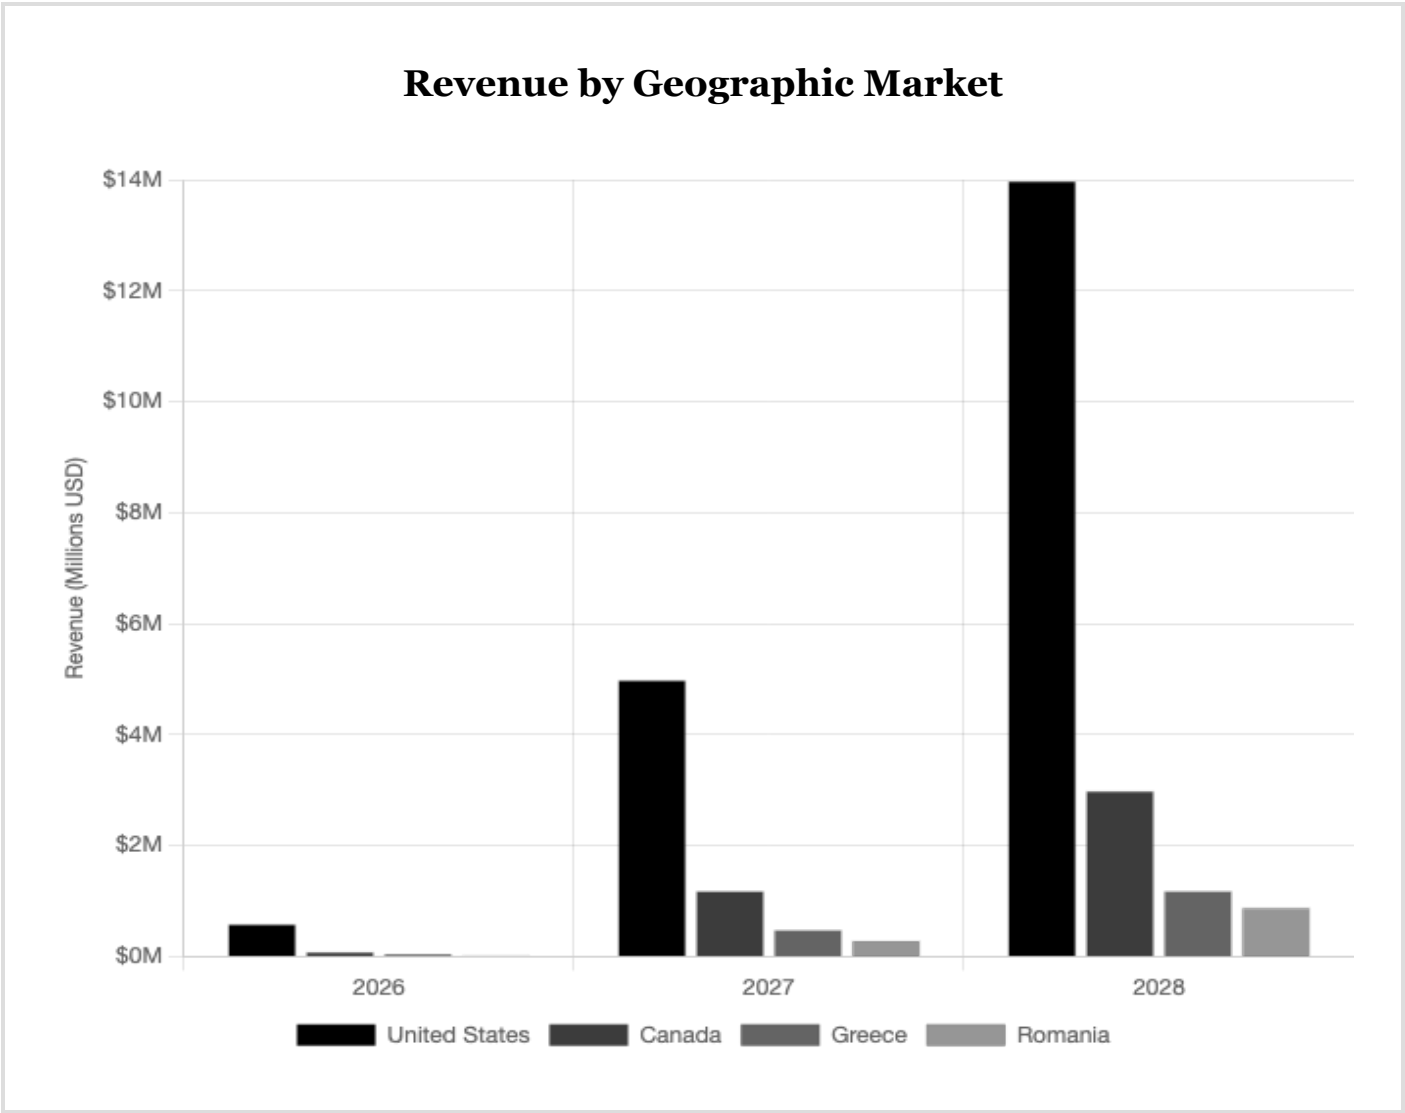

3-Year Revenue Projection

EyeNet Vision projects aggressive growth from \$1.04M in 2026 to \$26.15M in 2028, driven by B2B enterprise expansion and B2C consumer adoption.

Metric	2026	2027	2028
B2B Enterprise	\$600K	\$4.5M	\$14.5M
B2C Consumer	\$440K	\$3.59M	\$11.65M
Total Revenue	\$1.04M	\$8.09M	\$26.15M
Gross Margin	65%	62%	60%

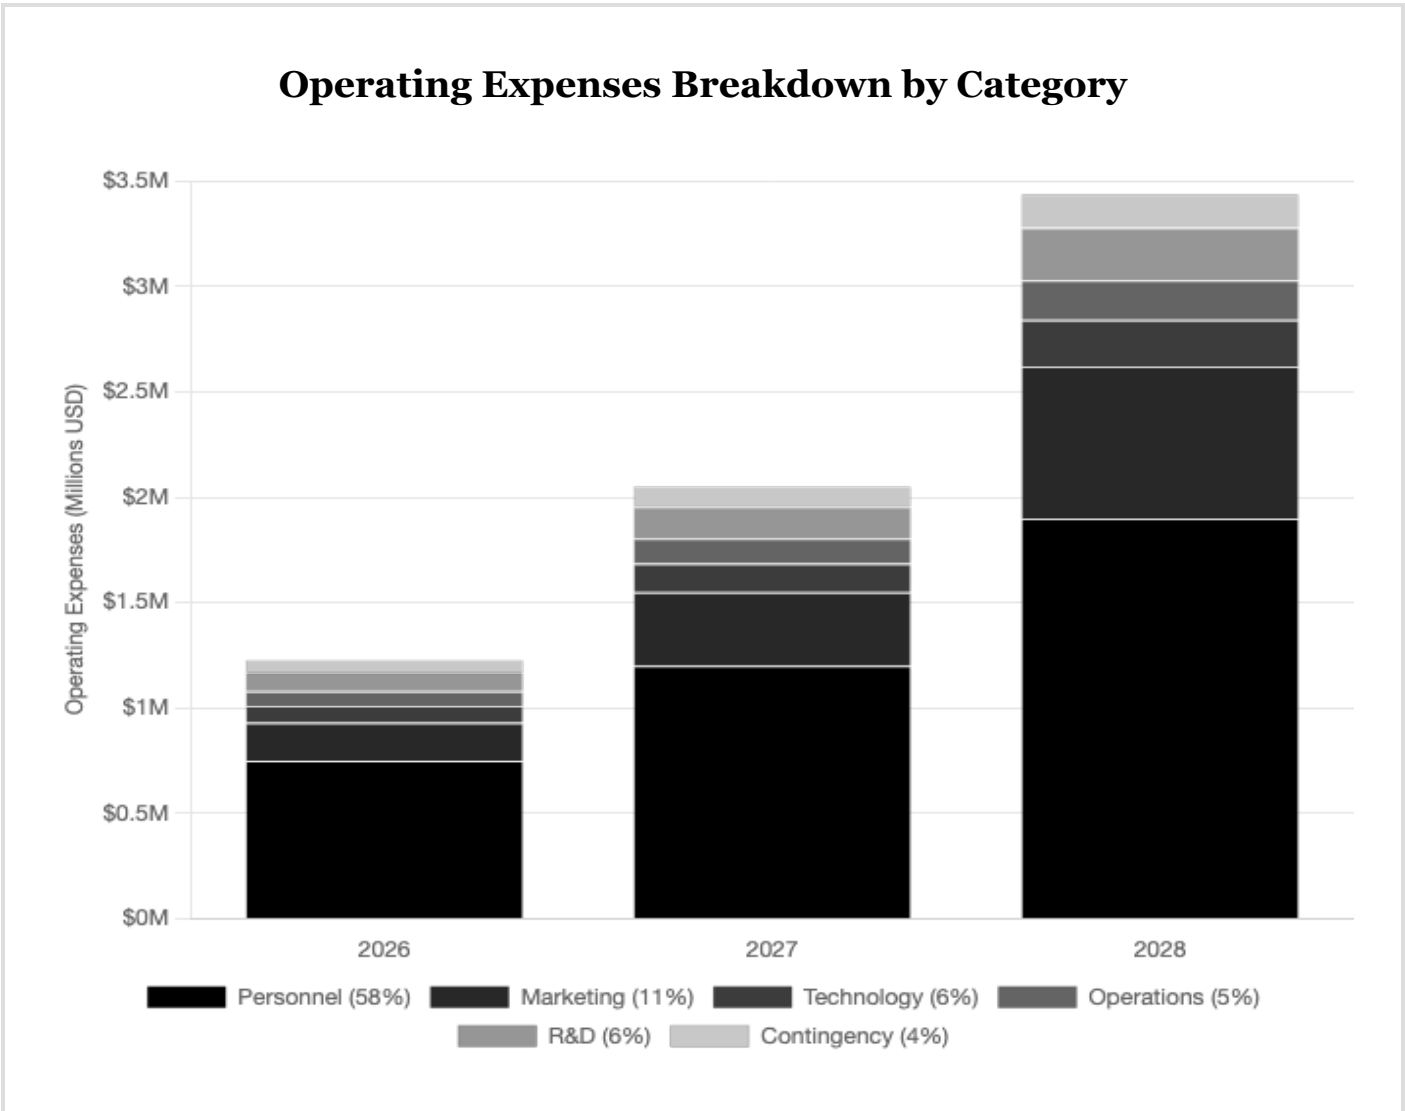

Geographic Market Breakdown

Market	2026	2027	2028
United States	\$600K	\$5.0M	\$14.0M
Canada	\$100K	\$1.2M	\$3.0M
Greece	\$50K	\$500K	\$1.2M
Romania	\$30K	\$300K	\$900K

Operating Expenses Structure

OpEx scales from \$1.4M in 2026 to \$5.3M in 2028, with personnel costs representing the largest investment category at 58% of total operating expenses.

Cost Center	2026	2027	2028
Personnel (58%)	\$750K	\$1.2M	\$1.9M
Marketing & CAC (11%)	\$180K	\$350K	\$720K
Technology (6%)	\$80K	\$135K	\$220K
Operations (5%)	\$70K	\$120K	\$190K
R&D (6%)	\$90K	\$150K	\$250K
Contingency (4%)	\$60K	\$100K	\$160K
Total OpEx	\$1.4M	\$2.7M	\$5.3M

Profitability Path

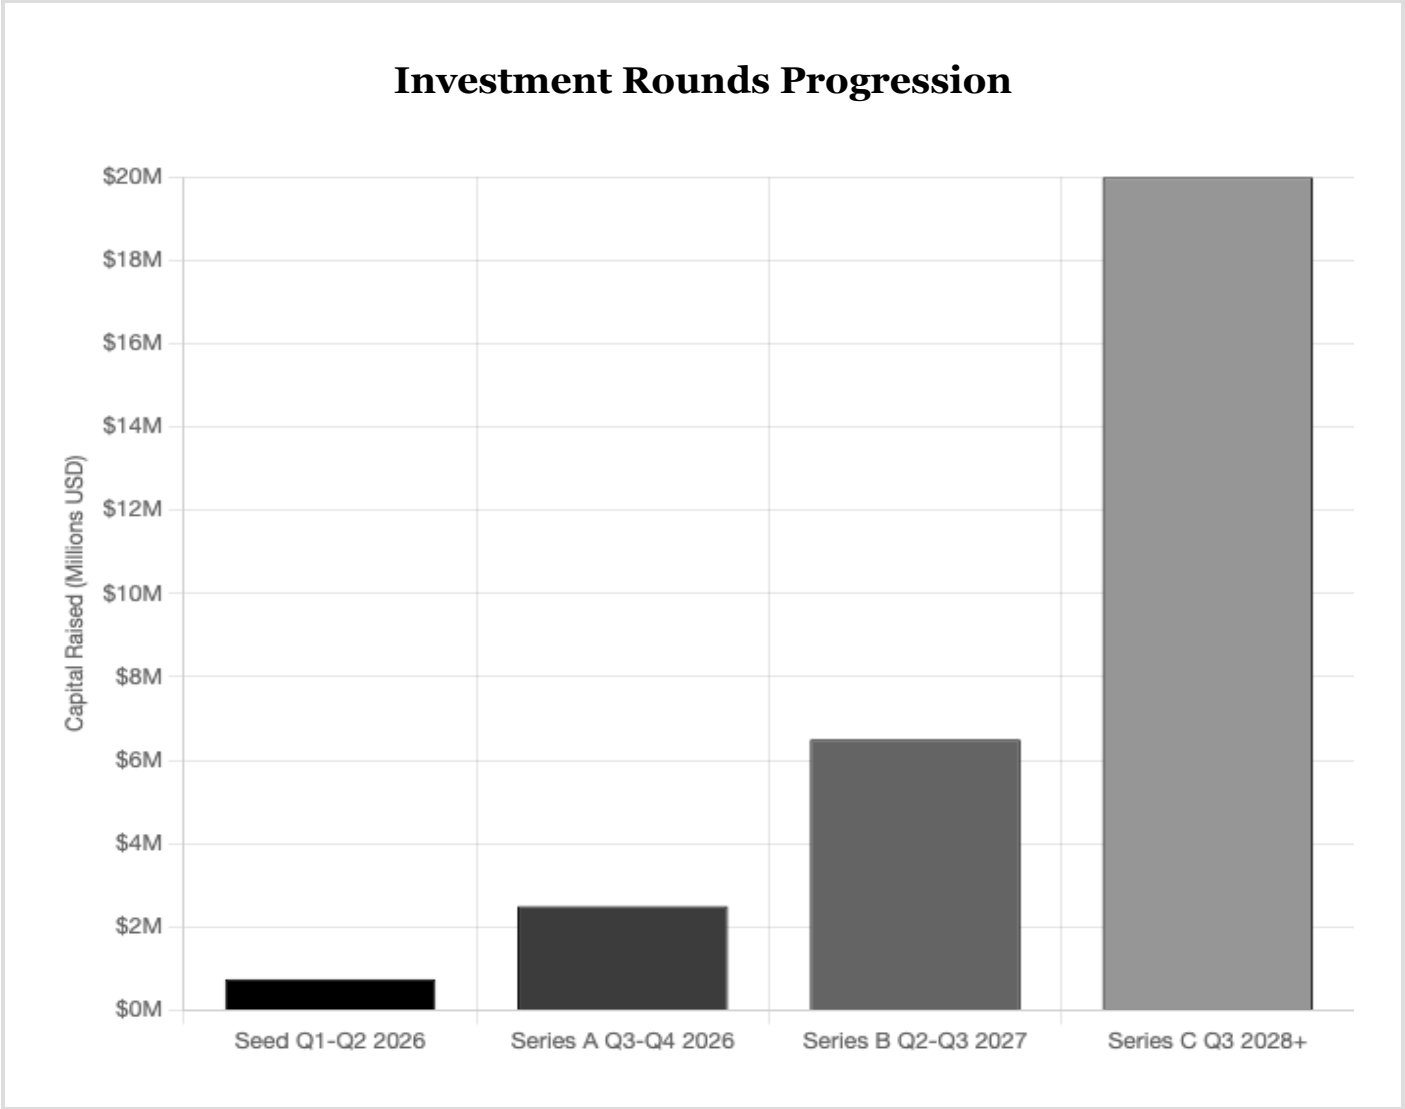

- **2026:** -\$360K EBITDA (heavy investment phase)
- **2027:** +\$2.4M EBITDA (breakeven achieved)
- **2028:** +\$6.7M EBITDA (35-40% margin)

Investor Strategy

Investment Highlights

- **Proven Technology:** Beta-ready products with 5 applications ready for Q2 2026
- **Dual Revenue Model:** B2B (\$6K-\$150K contracts) + B2C (\$20-\$300/month)
- **3-Year Trajectory:** \$1M (2026) → \$8M (2027) → \$26M (2028)
- **Geographic Focus:** North America (US, Canada) + EU pilots
- **Exit Path:** IPO or strategic acquisition at \$300M-\$1B valuation (2029-2030)

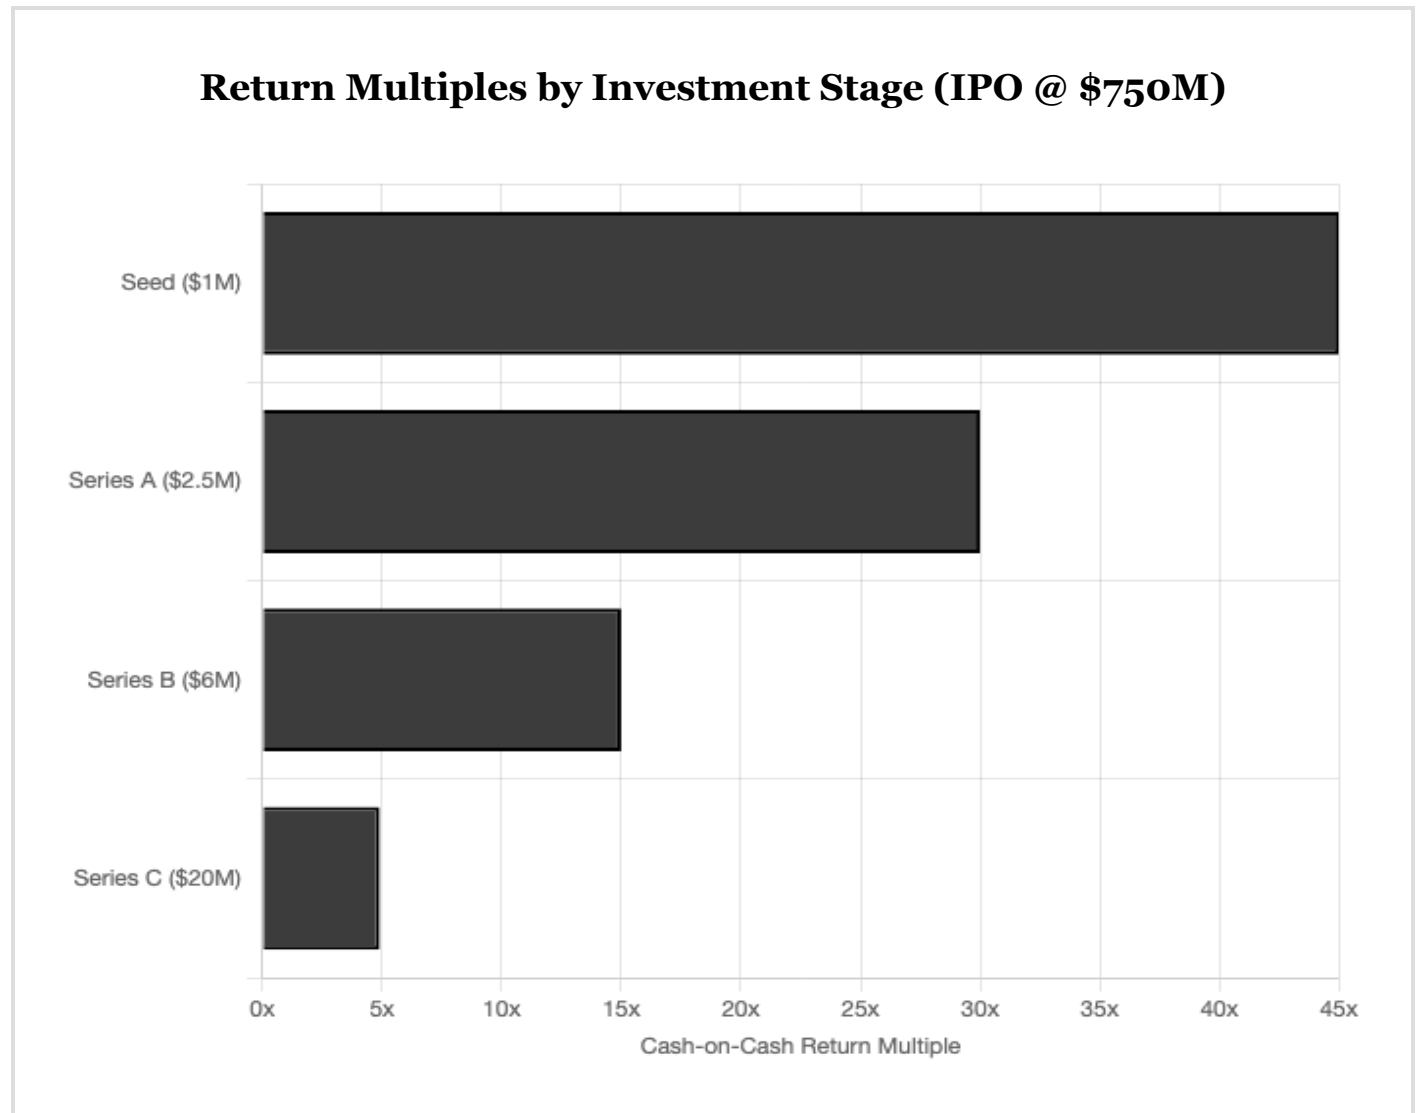

Investment Rounds Overview

Round	Timing	Target Raise	Valuation	Dilution
Pre-Seed/Seed	Q1-Q2 2026	\$500K-\$1M	\$2-4M	15-20%
Series A	Q3-Q4 2026	\$2-3M	\$8-12M	20-25%
Series B	Q2-Q3 2027	\$5-8M	\$30-40M	18-22%
Series C	Q3 2028+	\$15-25M	\$100-150M	15-20%
Exit	2029-2030	—	\$500M-\$1B	—

Return Analysis

Based on a midpoint exit valuation of \$750M, early investors can expect exceptional returns with Seed stage investors achieving 45x multiples and 110% IRR over a 5-year hold period.

Round	Investment	Entry Valuation	Post-Dilution Equity	Exit Value	Multiple	IRR (5-Year)
Seed	\$1M	\$3M post	6%	\$45M	45x	110%
Series A	\$2.5M	\$12.5M post	10%	\$75M	30x	85%
Series B	\$6M	\$45M post	12%	\$90M	15x	65%
Series C	\$20M	\$150M post	13%	\$97.5M	4.9x	40%

Exit Strategy

Option 1: Initial Public Offering (IPO)

- **Target Valuation:** \$500M - \$1B
- **Revenue at IPO:** \$40-60M ARR
- **Target Exchange:** NASDAQ or NYSE
- **Requirements:** \$60M+ ARR with 25-30% growth, positive free cash flow, Rule of 40: 50+

Option 2: Strategic Acquisition

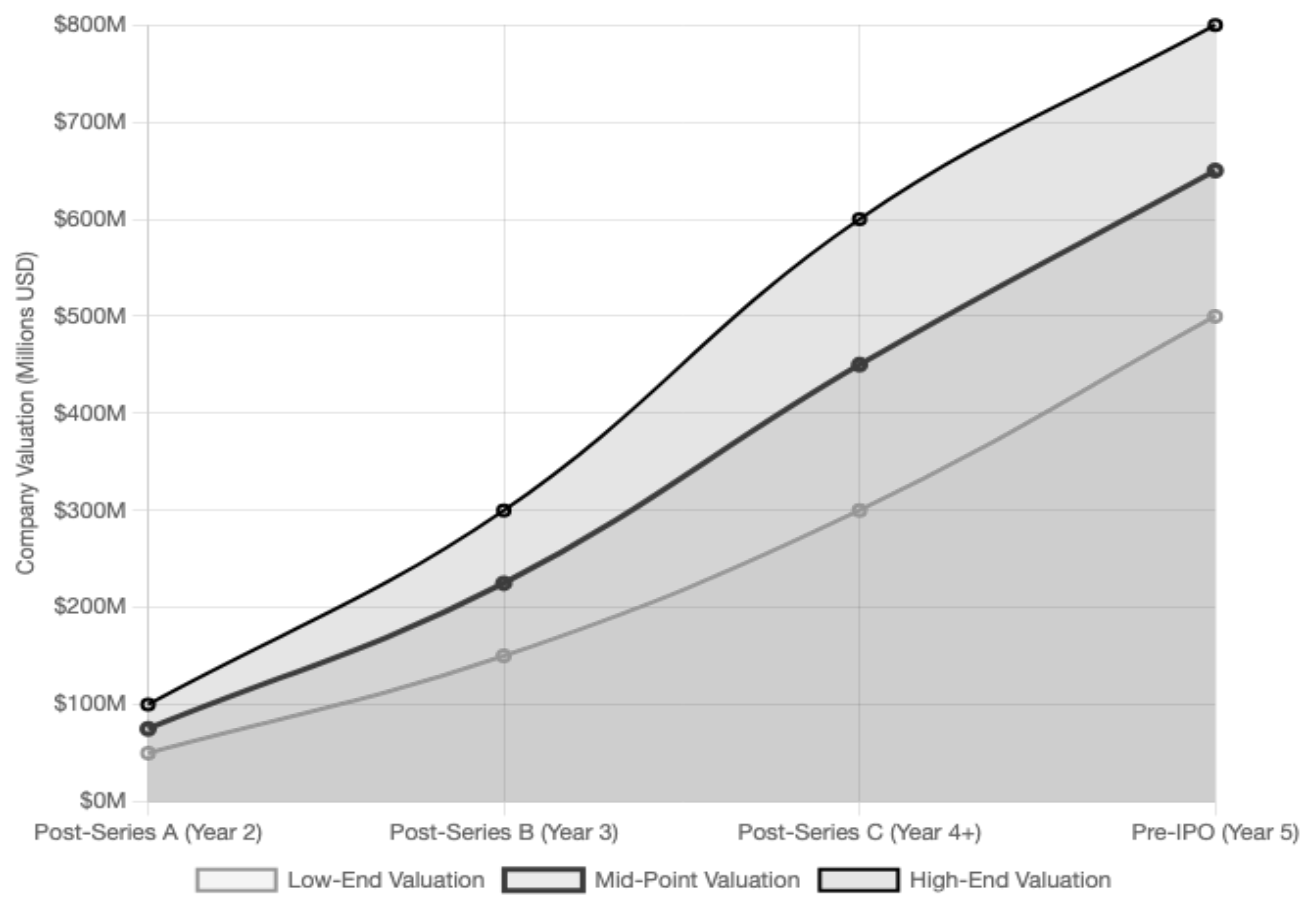

Tier 1 - Cloud/Tech Giants (\$500M-\$1B+ valuation)

- **Amazon/AWS:** Integrate into AWS security stack, Amazon Go retail tech
- **Google Cloud:** Add vision AI to Google Cloud AI Platform, retail analytics
- **Microsoft:** Integrate into Azure AI services + Dynamics CRM

Tier 2 - Security Conglomerates (\$300-600M valuation)

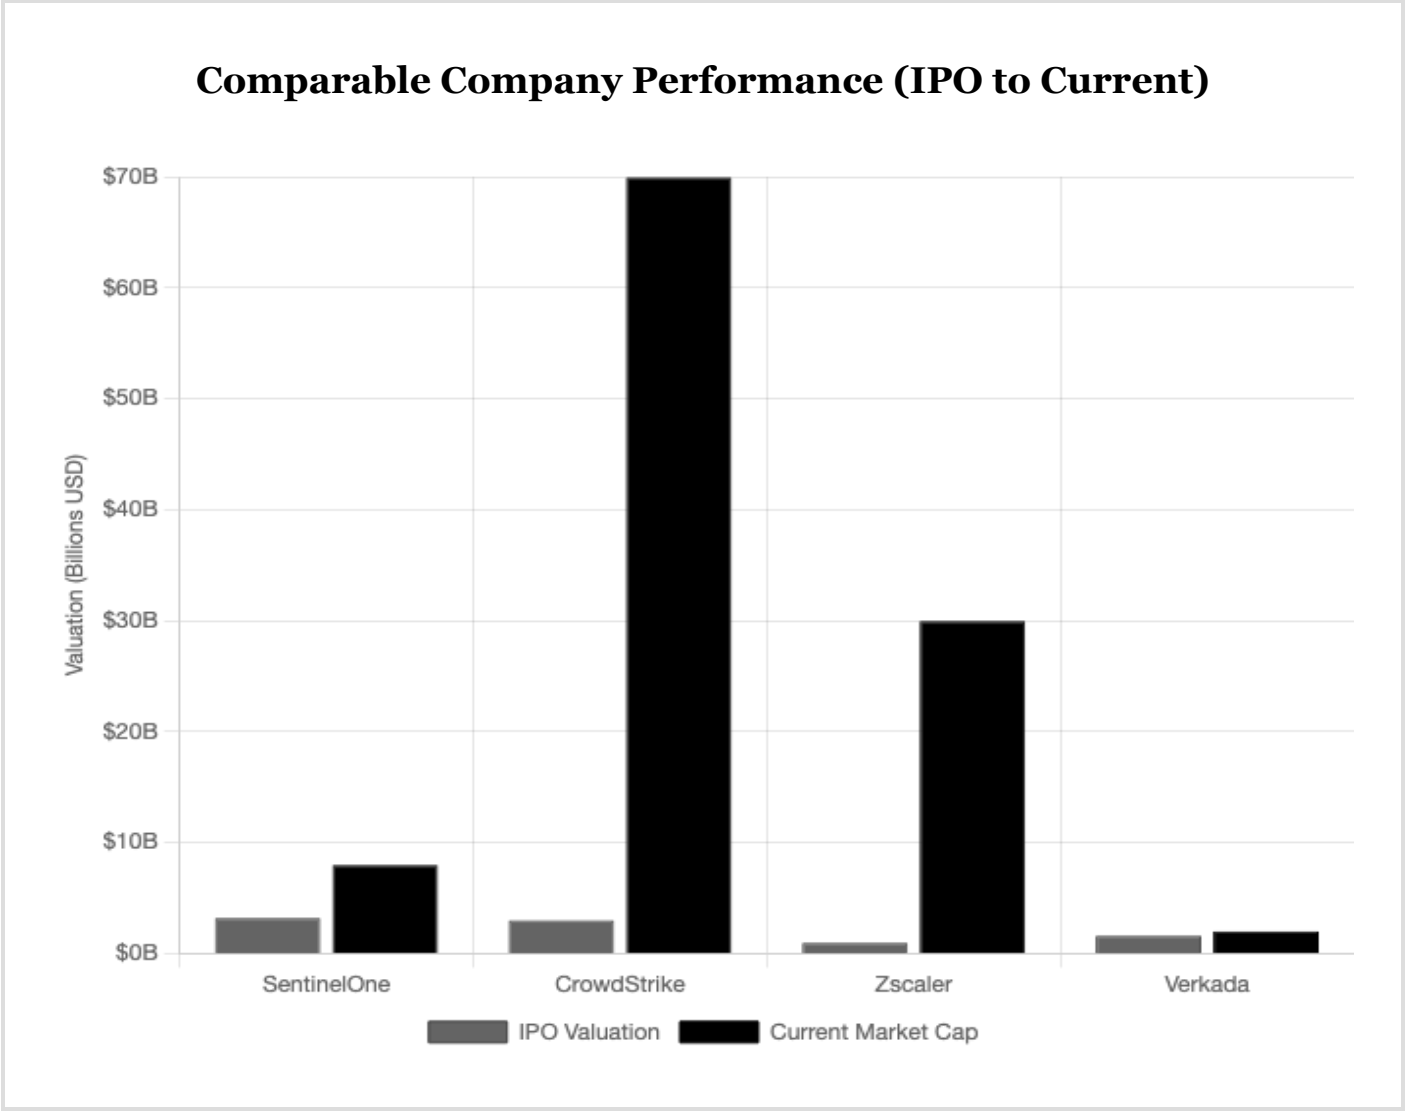

- **Bosch Security Systems:** Expand AI/vision product portfolio
- **Axis Communications:** Leading IP camera manufacturer seeking AI differentiation
- **ADT/Securitas:** Security monitoring companies adding intelligent vision

Exit Valuation Scenarios by Timing

Exit Timing	Revenue (ARR)	Valuation Range	Revenue Multiple	Likely Acquirer Type
Post-Series A (Year 2)	\$3-5M	\$50-100M	10-20x	Security conglomerate
Post-Series B (Year 3)	\$10-15M	\$150-300M	10-20x	SaaS platform
Post-Series C (Year 4+)	\$30-40M	\$300-600M	10-15x	Cloud giant
Pre-IPO (Year 5)	\$50-60M	\$500-800M	10-13x	Strategic mega-acquisition

Comparable Company Analysis

Company	Focus	IPO Valuation	Current Market Cap	Growth Multiple
SentinelOne	Cybersecurity + AI	\$3.2B (2021)	\$8B+	2.5x
CrowdStrike	Cybersecurity + AI	\$3B (2019)	\$70B+	23x
Zscaler	Cloud Security	\$1B (2018)	\$30B+	30x
Verkada	Security + AI	\$1.6B (Series D, 2021)	\$2B+ (estimated)	1.25x

Investment Decision Framework

Why Invest in EyeNet Vision?

- **Strong Market Opportunity:** \$2-4B TAM with growing post-pandemic demand
- **Proven Technology:** Beta-ready products with pilot customer validation
- **Diversified Revenue Model:** B2B stability + B2C volume
- **Compelling Unit Economics:** CAC payback <6 months, 65-70% gross margin
- **Clear Path to Exit:** IPO \$500M-\$1B or strategic acquisition \$300-600M
- **Attractive Returns:** 30-45x returns for early investors (85-110% IRR)

Risk Factors & Mitigation

1. Regulatory & Privacy Compliance

Risk: GDPR, CCPA, facial recognition bans limit market opportunity

Mitigation: Modular design allows disabling demographic features; age-only detection reduces PII collection; on-premises deployment option

2. Market Competition

Risk: Large players (Google, Amazon, Meta) enter with massive resources

Mitigation: Vertical specialization (6 focused applications vs. horizontal platform); proprietary algorithms; strong customer lock-in

3. Customer Concentration

Risk: Early-stage dependency on pilot customers

Mitigation: Diversified customer base across verticals; B2B + B2C dual model; no customer >15% of revenue policy

Competitive Analysis

Market Position

EyeNet Vision differentiates through vertical specialization with six purpose-built applications rather than a generic horizontal platform. This focus enables deeper feature sets and more targeted go-to-market strategies for each vertical.

Key Differentiators

1. **Demographic Intelligence:** Accurate age/gender detection across all applications

2. **Mobile Security Innovation:** Wearable and drone deployment options

3. **Industry-Specific Solutions:** Tailored applications for specific use cases

4. **Real-time Response:** Instant alerts and notifications systems

5. **Compliance Focus:** Built-in reporting for regulatory requirements

6. **Modular Deployment:** Flexible mode selection matching facility architecture

Competitive Comparison

Feature	EyeNet Vision	Generic Surveillance	Marketing Analytics
Demographic Detection	✓ Advanced	✗ Limited	✓ Basic
Real-time Alerts	✓ Yes	✓ Basic	✗ No
Compliance Reporting	✓ Built-in	✗ Manual	✗ No
Mobile Deployment	✓ Wearable/Drone	✗ Fixed only	✗ Fixed only
Privacy-First Design	✓ On-premises	~ Varies	✗ Cloud-based
Pricing Model	Flexible (B2B/B2C)	Enterprise only	Subscription

Market Coverage

Horizontal Markets: Retail, Security, Education, Healthcare, Corporate, Industrial, Government, Public Transit, Hospitality/Events

Vertical Specialization: Six distinct applications with targeted features and marketing for specific industry needs

Product Roadmap

2026 Launch Timeline

Quarter	Milestone	Products
Q1 2026	Beta Testing & Refinement	All 5 initial products
Q2 2026	Public Launch	Intelligent Signage, Gate Activity, Room Protection, Sentinel, Underage Detector
Q3 2026	Mobile App Release	iOS/Android apps for all products
Q4 2026	Security Officer Agent Launch	Wearable device integration

Feature Development Priority

High Priority (Q2-Q3 2026)

- Enhanced demographic detection accuracy (95%+ precision)
- Advanced analytics dashboard with export capabilities
- Integration APIs for third-party systems (Salesforce, Slack, etc.)
- Mobile app launch (iOS/Android)
- Multi-language support (English, Spanish, French, German)

Medium Priority (Q4 2026 - Q1 2027)

- Drone mode for Security Officer Agent
- Advanced behavioral analytics (loitering detection, crowd analysis)
- White-label customization options
- Cloud sync capabilities (optional)
- Advanced reporting and compliance templates

Future Enhancements (2027+)

- AI-powered predictive analytics
- Integration with smart building systems
- Advanced facial recognition (optional, compliance-dependent)
- Custom ML model training for specific use cases
- Enterprise-wide fleet management system

Conclusion

Investment Recommendation

STRONG BUY for Seed/Series A Investors

EyeNet Vision presents a compelling venture capital investment opportunity with large addressable market, proven technology, dual revenue model, and clear path to profitability and exit.

Key Takeaways

- **Market Opportunity:** \$2-4B TAM across multiple high-growth verticals
- **Product Readiness:** 5 applications ready for Q2 2026 launch
- **Revenue Growth:** \$1M → \$8M → \$26M (2026-2028)
- **Business Model:** Dual B2B/B2C approach provides stability and volume
- **Path to Profitability:** EBITDA positive by Q4 2027
- **Exit Potential:** \$500M-\$1B valuation within 4-5 years

- **Investor Returns:** 30-45x for early stage investors (85-110% IRR)

Next Steps

1. Complete Seed/Series A fundraising (\$2-3M target)
2. Expand sales and marketing teams (4 AEs, 2 SDRs)
3. Launch Q2 2026 public release (5 products)
4. Achieve 50-75 B2B customers + 500-1,000 B2C users by end of 2026
5. Expand to Canada and EU pilot markets
6. Prepare for Series B fundraising (Q2-Q3 2027)
